MEMORANDUM FOR: Acting Associate Deputy Director
for Administration

25X1A

FROM:

Acting Director of Training

SUBJECT:

Proposals for Agency Speakers in
Auditorium Series (U)

25X1A

1. (C) In order to continue the type of presentation which began on 17 January with the [REDACTED] presentation, the following suggestions are submitted:

a. A presentation by Office of Economic Research (OER) on "CIA and the Oil Question." This subject is certainly a currently critical issue of general interest. It involves multisource information and, therefore, involves many Agency components. The issue is now in the public domain which should reduce any hesitancy to talk about it to an Agency audience. I suggest that you might contact [REDACTED] Director/OER, or [REDACTED] his Executive Officer, directly to get OER reaction. The presentation could be in a panel format with [REDACTED] presenting the OER position, a second speaker summarizing public reaction, and a third speaker (perhaps [REDACTED]) resolving the differences by describing the working-level analysis which took place.

b. A presentation by [REDACTED] on his personal experience in thwarting an instance of terrorism in [REDACTED]. The case is known to a number of DDO officials, but I do not believe it is broadly known in the Agency.

2. (U) [REDACTED] has not yet had a chance to discuss the future program with [REDACTED] but she hopes to see him on 30 January. Sue is very aware of the requirement and has in mind an Office of Geographic and Cartographic Research demonstration of mapping using visual images from the computer. After the conclusion of CIA Today and Tomorrow on 27 January, Sue plans to develop a number of ideas.
